Ashish Agarwal

⊙ Aligarh, India ✉ code.with.aasheesh@gmail.com 🌐 https://ashishagarwal.is-a.dev

Summary

Accomplished and talented programmer and author with exceptional communication and interpersonal skills. Published 9 books on computer and programming topics. Proficient in creating responsive and interactive web applications. Strong team player, adept at collaborating and effectively communicating ideas. Demonstrated ability to work independently and solve complex problems. Ideal for both freshers and experienced professionals seeking a dynamic and innovative team member.

Education

Computer · Narungi Lal Government College   **Jan 2023 - Present**

Programming · Grade: 80%

At the age of 13, I harnessed my programming skills to become an accomplished book author in India. Independently mastering various programming languages, I actively pursued my passion, establishing a prominent online presence as the "computer boy aligarh". As a testament to my accomplishments, I have been featured in numerous interviews across various news channels and newspapers.

Projects

CutYourURL   **Jan 2024 - Present**

- Developed CutYourURL application using Python and Flask framework, incorporating Gmail API for enhanced functionality.
- Implemented URL shortening, captcha integration, custom slugs, and visibility settings to enhance user experience.
- Created user accounts for personalized URL management and tracking options.
- Demonstrated passion for coding and problem-solving through development of CutYourURL, showcasing proficiency in Python and web development frameworks.
- Utilized SQLite3 and MySQL for database and storage.

FreeGPT.js   **Feb 2024 - Present**

- Developed a client-side JavaScript framework to facilitate seamless interaction with ChatGPT for free
- Implemented a user-friendly interface for effortlessly querying ChatGPT using prompts
- Incorporated the highly advanced ChatGPT 3.5 Turbo Model, enabling powerful conversational capabilities
- Successfully reverse engineered You.com's ChatGPT Model API, providing access to similar functionalities and features

My Portfolio   **Feb 2024 - Present**

- Developed a comprehensive portfolio using advanced technologies such as Next.js, Framer Motion, and Tailwind CSS
- Demonstrated proficiency in utilizing these technologies to create visually appealing and interactive webpages
- Included a showcase of books authored and various projects undertaken to showcase my skills and expertise in the field
- Effectively communicated my qualifications and achievements to potential employers or clients
- Enhanced my online presence and professional credibility through an impressive and engaging portfolio

ChatGPT Clone with Next.js+FreeGPT.js   **Mar 2024 - Present**

- Developed a functional ChatGPT Clone using TailwindCSS and Next.js, integrating my custom library, FreeGPT.js
- Revamped the Chat Interface of the official ChatGPT using TailwindCSS
- Successfully incorporated a message clearing feature into the project
- Enabled users to enjoy free and unlimited chats through the implementation of freegpt.js

Achievements and Awards

Milestone: 9 Books!   **Apr 2024**
